

Opus Wall Fan Revit Model Features

1. The model uses a type catalogue so all sizes of the Opus40-95 wall fan can be inserted using the same .rfa file (see Read Me file attached for further info)

The opus40-95.rfa model attached includes the following options in the Model Properties Category in the Properties Window

2. The spigot position must be decided before importing the model. Both the 'Top Spigot' and 'Back Spigot' configurations are available in the 'Specify Types' window as shown below. Please note: The OPUS95D unit is not available with a top spigot.

Type	Unit Description	Nominal Motor Rating	Nuaire Model Code
	(all)	(all)	(all)
OPUS40S-CF (Back Spigot)	Wall Mounted Fan with Speed Control	14.00 W	OPUS40S-CF
OPUS40S-CF (Top Spigot)	Wall Mounted Fan with Speed Control	14.00 W	OPUS40S-CF

OPUS40S-CF (Back Spigot)

OPUS40S-CF (Top Spigot)

3. The 'Recess Mounted' tick box allow you to recess the fan into the wall/ceiling automatically.
